The Town holds collector's deeds amt. to.	102.28	
Due from State for bounties.....	1.40	
	<hr/>	\$2,793.19

## LIABILITIES.

Local School Fund.....	\$ 550.00	
Jane Knight, fund and int.....	210.10	
Lisbon Savings Bank & Trust Co., notes.	1,546.04	
	<hr/>	\$2,306.14
Assets over liabilities.....		\$487.05
Joseph Fund, amounts to.....	\$74.73	

We have examined the accounts of the town for the past year and find the town in a prosperous condition, her receipts increasing from \$5,475.01 in 1902 to \$13,310.78 in 1912, which you will see is quite an increase.

There are nearly \$300, in small bills as yet unpaid, and one order for \$42.65 that has not been cashed.

We respectfully submit this report.

## REPORT OF THE SUPERINTENDENT OF SCHOOLS.

*To the School Board of Landaff:*

I herewith present to you and through you to the citizens of Landaff my second annual report as superintendent of your schools.

I shall divide my report into two parts; dealing in the first with what has been accomplished in your schools, and in the second with some of the things that are necessary for more efficient schools.

1. (a) The school year has been increased from 23 or 25 weeks to 30 weeks in all the schools. This was necessary to obtain the state aid for approved teachers and for average attendance of pupils. This year \$187.50 was received from these two sources.

(b) The attendance has improved in all the schools. The percent of attendance for the year ending July 1, 1911 was 93 as against 86 percent for the previous year. Nine dollars and fifty cents more was received from the state this year than last year. Each session's attendance means more money from the state besides being a benefit to the child.

(c) The tardinesses decreased from 124 for the Fall and Winter terms of 1910 to 55 for the same terms of this year. There were only 147 during all of the last year, a number much smaller than in previous years.

(d) The schools have all been graded and are now following the course of study furnished by the State Department and are working along the same lines as any of the village schools. This means that a pupil can change from one school to another without loss of time or effort and that he can be prepared for a high school or academy in his own home district, thus saving a great amount of expense and time.

(e) The school work has been greatly strengthened. Results in most of the work, and more particularly in reading, spelling

and arithmetic, have been very gratifying. The results of the examination taken by the pupils of the Eighth grade recently were very pleasing.

(f) The school buildings in all the districts but Scotland have been repaired. New black boards have been placed in the Scotland school and at Foster Hill.

(g) New and modern text books have been furnished the pupils and the old, badly worn, filthy books have been disposed of. An inventory of the books has been made so that it is possible to keep an account of all the books at all times.

(h) The supplies, pencils, paper, chalk, etc., have been bought in large quantities, so that a great saving has resulted. There has also been much less waste in the use of the supplies. Pencils that are usually sold at retail for five cents each or two for five cents have been purchased for \$1.35 a gross. Paper that costs 25 cents a package at retail has been bought for 16 cents. Other supplies have been bought at proportionately low prices.

(i) Spelling and speaking contests were held during the Fall and Winter terms. All will agree that these contests are of much benefit to the pupils. All of the contestants certainly deserve much credit for their efforts.

2. (a) One of the greatest needs still is a greater sense of responsibility on the part of the parents in regard to attendance of children. When the State of New Hampshire makes a law which compels attendance, it seems unnecessary to enter into any discussion of the matter here.

(b) There is still chance for improvement in regard to tardiness. Every time a pupil is late it detracts from the work of the session. It's a bad example, and a bad habit for any child to form.

(c) More interest on the part of the parents in the work of the schools is necessary. It is a duty every parent owes his children to visit the schools and to inspect the work that is being done and the conditions that exist in the school. No parent should be satisfied to take some one's else word for these things.

(d) A thorough renovation of the Scotland schoolhouse is necessary. New desks and seats should be placed in all the buildings as soon as the expense can be met. The toilet arrangements should be improved. The parents would not be satisfied with the present conditions at their homes. Then why allow them to exist for your children?

(e) A livelier interest in education on the part of the children so that they will at least secure all the advantages offered in the common schools and then go to a good high school if possible. No child is barred from school because of his age. Some have the false impression that a child cannot attend the common schools as long as he chooses.

(f) Co-operation and united efforts of parents, children, teachers, school board and superintendent for the greater efficiency of the schools. They are your schools and are for your children. We are trying to make them good schools. We need your co-operation and support. Parents have reason to expect much from the schools, but never more than they are willing to contribute in encouragement and support. "In union there is strength."

For further data, I refer you to the statistics.

In conclusion, I wish to express my appreciation for the support of the school board and the teachers.

Respectfully submitted,

JOHN S. GILMAN.

February 15, 1912.
